Read the following passage carefully and answer the questions:

It is ironic that, migratory birds, fondly called 'guest birds' are far from treated with hospitality and instead are often trapped poisoned; Shot dead by unscrupulous 'hosts' in Bangladesh. A good number of winter ducks, geese and shorebirds perish here every year. This happens mainly because of a small number of affluent people who see these birds as a delicacy to satisfy their greedy palates rather than as the invaluable international treasures that they are.

web: http://tanbir.99k.org

Statistics show that the number of these birds have been declining rapidly over the past few years. It is the lack of awareness in the society that is leading to the sad demise of the bird population. The only way to

save the birds is to create a strong awareness among people from all walks of life through different initiatives and management programs.
